Objectives

Success Metrics

Target Market

Exploratory primary research

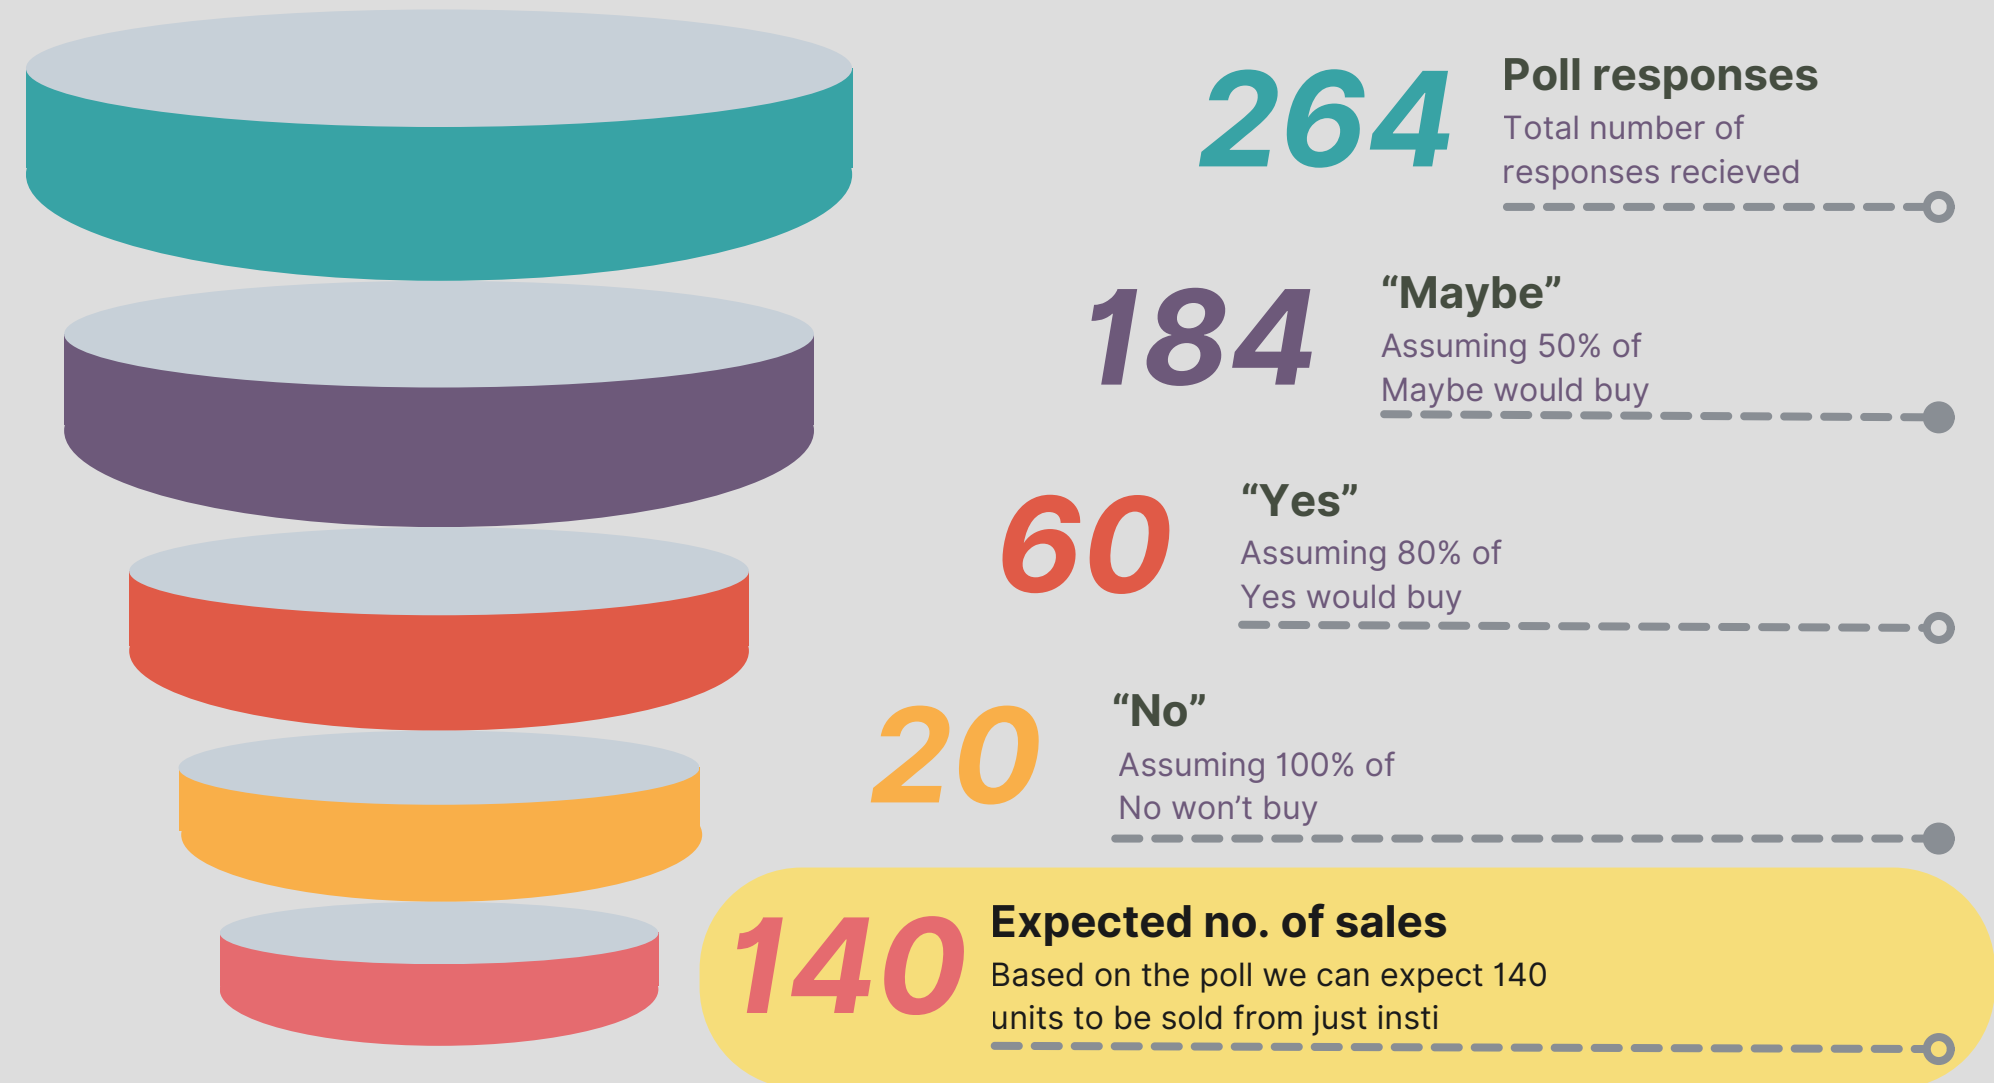

260+
responses

WA poll

A WhatsApp poll was conducted in all the girls hostel groups of IITM students on introducing cropped tshirts as a part of the official merch lineup

Guesstimate: Purchase Intent

Note: This data doesn't include freshers, so including them will increase number of sales, preferably above 200

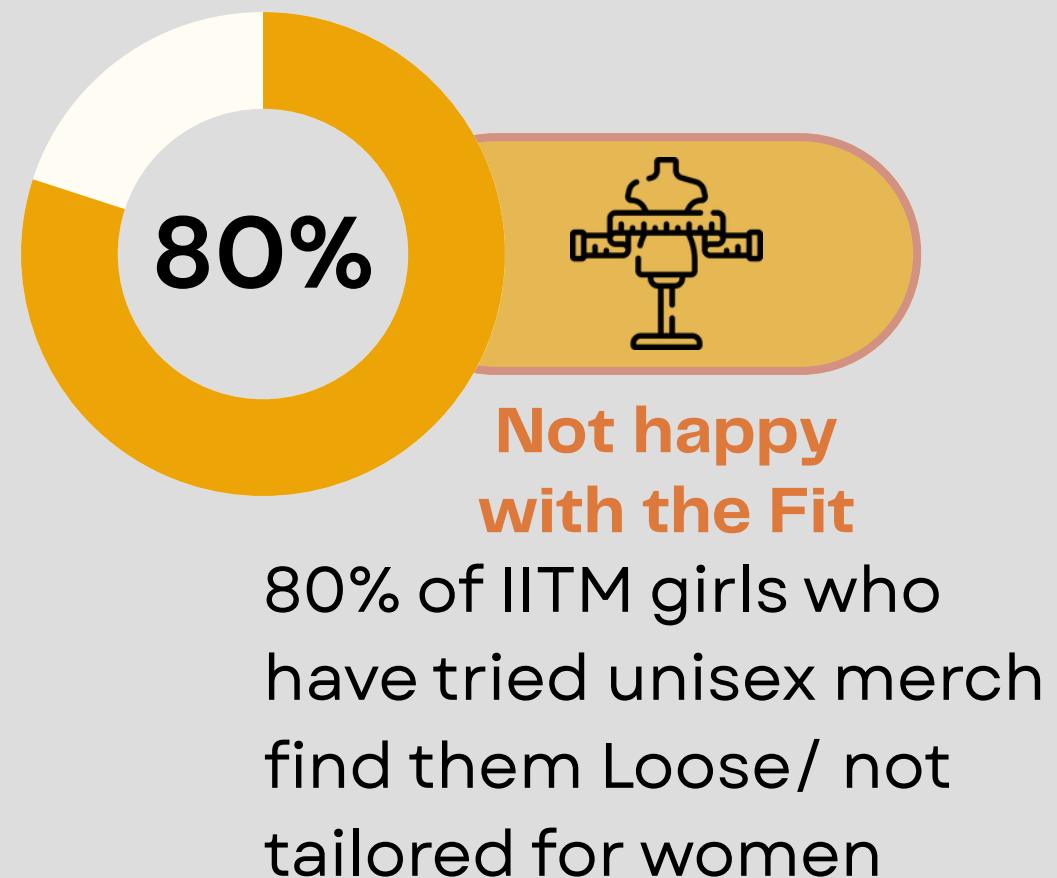

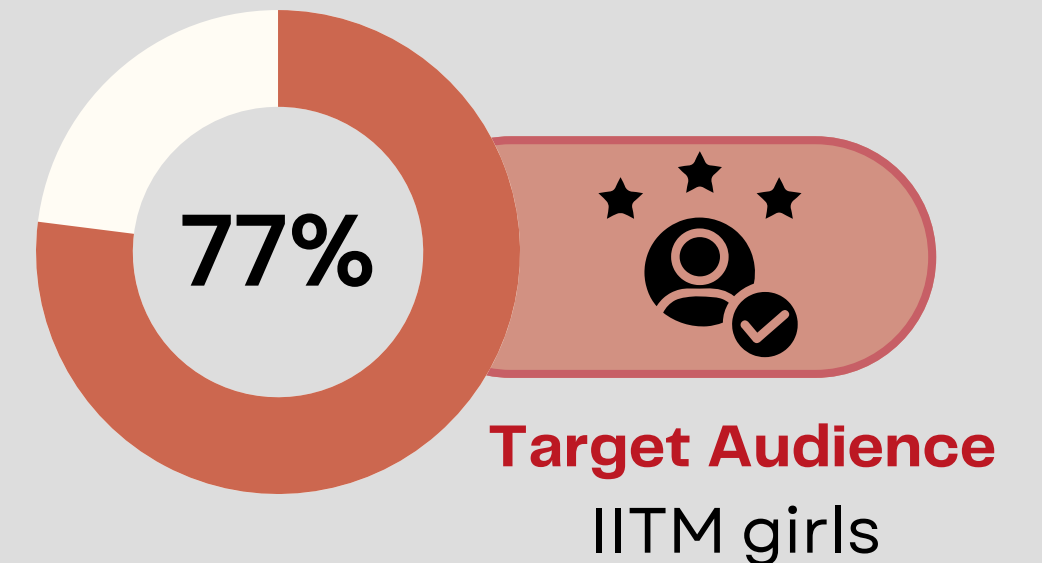

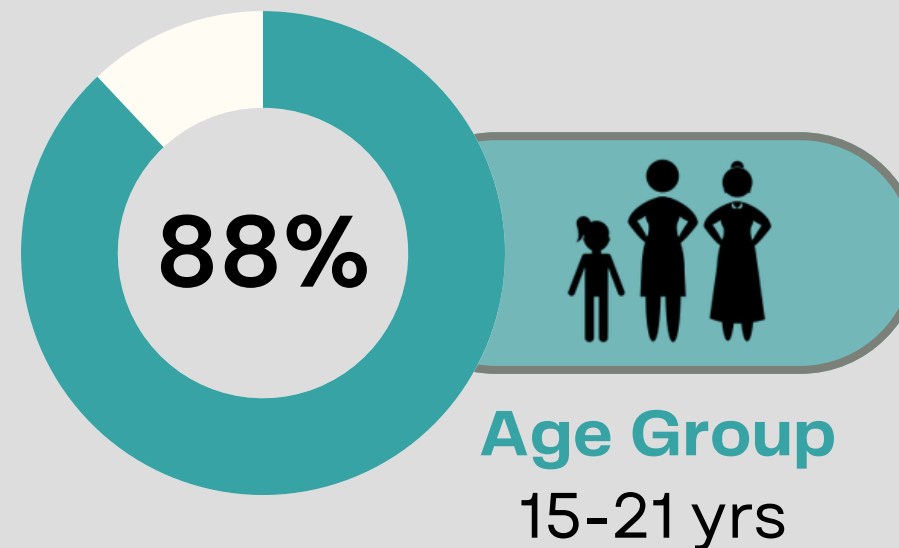

Quantitative primary research

100+
responses

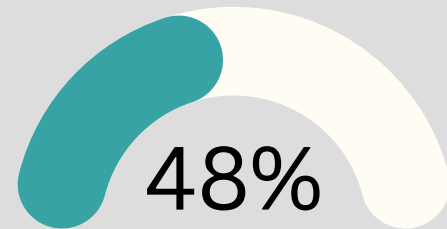

Gform Survey

A gform was shared among both IITM and non-IITM girls to have a better understanding on style, fit, design aesthetics, and price sensitivity

Buyer Persona

20%

Budget Bhadra

15, School student

- Likes tight fitted crop tops and leans toward feminine and cute/girlish aesthetics
- Prioritizes low price over design and quality; chooses practicality over trendiness

30%

Minimalist Madhu

24, IT employee

- Goes for regular, medium-length crop tops with neutral, minimal designs with a reasonable pricing
- Believes higher cost = better quality

50%

Trendy Tanya

20, College Student, IITM

- Prefers loose/ boyfriend fits with bold, edgy design; aligns with latest trends.
- Finds unisex fit uncomfortable/ less flattering for women

SWOT Analysis

STRENGTHS

First women-specific merch lineup of Saarang, backed by strong survey demand

S

WEAKNESSES

Narrower target audience (only female buyers), reducing total merch reach

W

OPPORTUNITIES

Chance to pioneer a new fashion-forward segment of the official merch lineup

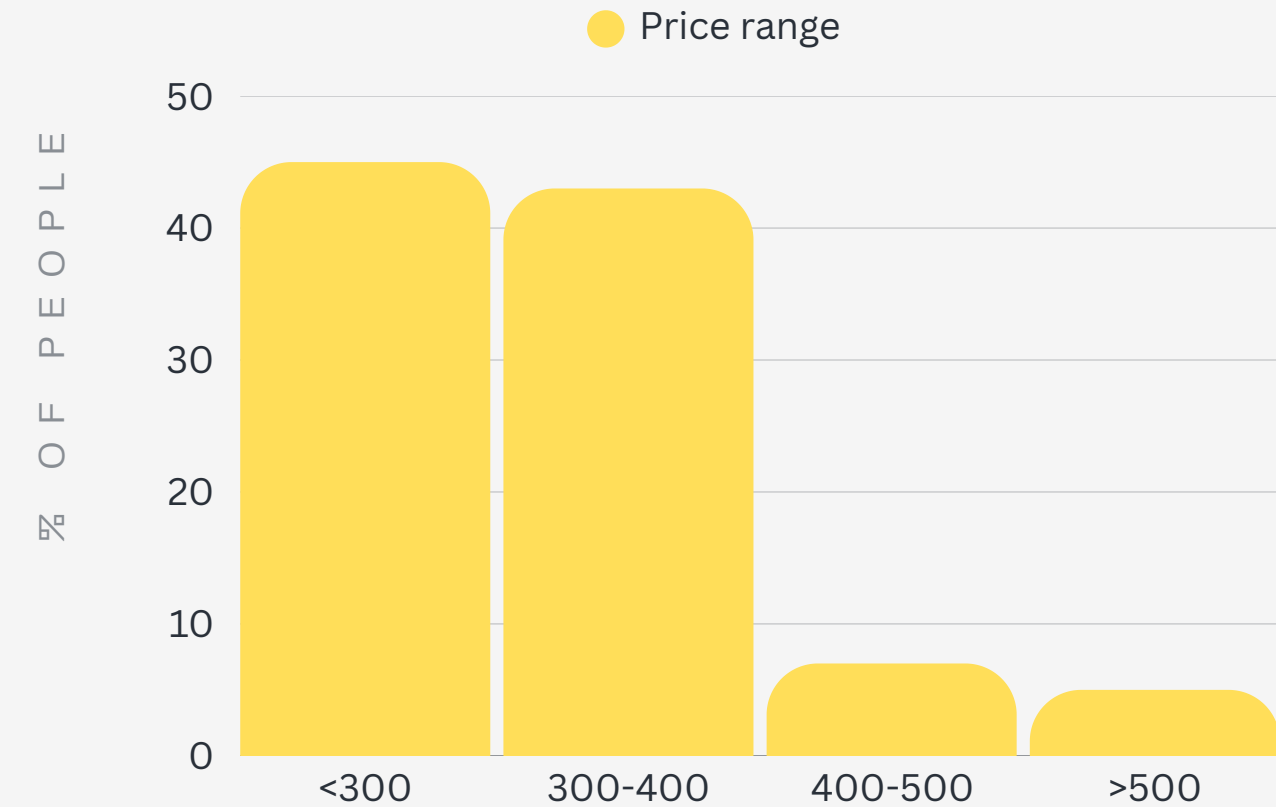

O

THREATS

Risk of low conversion despite interest due to sizing uncertainty or price sensitivity.

T

Price sensitivity analysis

- More than **85% buyers** in the range below 300 to 400
- 📌 **Recommended Price Point: ₹299-399**
Balances affordability, brand perception & production cost.
- Pricing **above ₹450 may alienate >80%** of interested buyers.

Cost/piece	Buyer price	No. of orders	Total revenue	Total cost	Profit	Profit Margin %
195	300	250	75000	48750	26250	35.00
	350	220	77000	42900	34100	44.29
	380	200	76000	39000	37000	48.68
200	300	250	75000	50000	25000	33.33
	350	220	77000	44000	33000	42.86
	380	200	76000	40000	36000	47.37
230	350	220	77000	50600	26400	34.29
	380	200	76000	46000	30000	39.47
250	350	220	77000	55000	22000	28.57
	380	200	76000	50000	26000	34.21
300	400	200	80000	60000	20000	25.00

Key Takeaways:

- **Highest profit margin 48.68%** at selling price of ₹380 and cost price of ₹195.
- **Optimal balance** of affordability and profit observed between **₹350–₹380 selling price** range.
- **Beyond ₹380–₹400, profit margins drop** significantly if order volume decreases.

Comparison with prev yr data:

- **Oversized tshirt:**
Cost: Rs 190-195 | Units sold: 277
Pricing: 449 normal; 399 early bird | **Profit margin: 51.25%**
- Total profit from all the merch was 3-4L, so **oversized contributed 16.22% to the overall profit.**
- Projecting the same data and revenue this yr, this addition of new merch **will increase profit by 10.6%**

Fit Check: Market Edition

Market gaps

- Monotonous lineup every year
- Fit of unisex merch generally not tailored for women
- Lacking in fashion-oriented merch (apart from oversized)

Constraints

- Crop tops are gender-specific
- Only ~20% of insti population is girls, thus narrowing down target reach
- No previous data for analysis

Competitive analysis

MoodIndi & Festember

- No variety in the official merch lineup
- Just one type with 2-3 designs & colours
- Tshirt prices comparable to our tshirt merch

Online platforms(price comparison)

- Bewakoof: Rs. 399-700
- Nykaa Fashions: Rs 380- 750
- The Souled Store: Rs 499- 899

Festember- NITT

MoodIndi-IIT BOMBAY

Design mockups
